PROFESSIONAL SUMMARY

Frontend Engineer specializing in React, Next.js, React Native, and TypeScript with experience building scalable web and mobile applications across healthcare, bullion trading, and ecommerce platforms. Skilled in API integration, real-time socket workflows, reusable component systems, and responsive UI development.

EXPERIENCE

Goldjar Technologies Private Limited | Frontend Developer | Nov 2025 - Present | Mumbai

Bullion Trading Platform, Ecommerce Platform & Mobile Applications

- Developed and maintained multi-platform web and mobile applications using Next.js and React Native
- Developed reusable frontend components to maintain consistent UI across web and mobile platforms
- Integrated APIs for authentication, notifications, real-time trading data, and business workflows
- Implemented an Authorized Delivery workflow enabling customers to approve or reject delivery verification requests
- Improved socket reliability using a heartbeat-based ping/pong reconnection mechanism for stale connections
- Resolved issues involving duplicate notifications, API inconsistencies, state persistence, and cross-platform UI rendering

Arteos Life OÜ | Frontend & Mobile Developer (Contract) | Apr 2025 - Sep 2025 | Tallinn

MedSixty | AI-Powered Clinical Intelligence for Clinicians

- Developed and optimized a cross-platform React Native application for Android & iOS
- Redesigned the medical web platform from Figma designs with focus on accessibility and UI consistency
- Built AI-powered interfaces, medical tools, animations, loaders, and responsive frontend experiences
- Created reusable frontend components while integrating secure APIs and real-time updates

PROJECTS

- **ByteBazaar:** Developed a responsive ecommerce frontend with category filtering and optimized product browsing experience
- **Pokepedia:** Interactive Pokémon encyclopedia with API integration, search, filtering, and dynamic data rendering

SKILLS

React, Next.js, React Native, TypeScript, JavaScript, Tailwind CSS, ShadCN UI, Styled Components, Expo, HTML5, CSS3, Git, GitHub

Currently exploring backend development concepts including Node.js, Express.js, REST APIs, and database design

EDUCATION

St. John College of Engineering and Management, Palghar - Bachelor of Engineering in Information Technology | CGPA: 8.37
Jun 2025
